

## WHITE BAY ATTRactions

A year-round perfect climate and intimate island feel make Jost Van Dyke an attractive Caribbean destination. A member of the British Virgin Islands, Jost is located five miles north of St. Thomas/St. John, four miles west of Tortola BVI, and about 60 miles east of Puerto Rico. About four miles long and a mile or two wide, Jost offers that personal island feel that larger islands simply can't give. Everything is smaller, more secluded, and easier to get to. In short, it's the perfect island getaway.

Only 145 people call Jost home year-round, keeping the island an unspoiled paradise. There are three bays on the island, and Pink House Villas sit on White Bay, the least inhabited spot on Jost. Great Bay Harbor at the center offers a Customs House, ferry landing, restaurants and taverns. Little Harbor on the East end also offers a selection of eateries and bars.

Jost is a perfect launching spot to the bigger islands of St. Thomas/St. John and Tortola. Day trips to the islands can easily be arranged. Shop for souvenirs in any of the specialty shops. Sail across the water in a chartered sailing vessel. Scuba diving offers a close-up look at the island's most spectacular sight -- the underwater world. Or go home with a sail fish or tuna from your own private sea fishing expedition. Whatever your aquatic adventure, it can happen here.

Touted as one of the most beautiful beaches in the world, White Bay offers unparalleled crystal-clear water and soft white sand. With only three homes built in the area, White Bay remains Jost's most exclusive and least inhabited spot to vacation. Lounge by the water's edge with a pina colada or dive into the warm Caribbean water. Far from the tourist spots, White Bay guarantees a unique island experience, lulling you into a slower pace of life, pampering you with the tropical sunshine and sweet tropical nights. Just steps away from Pink House Villas, this secluded spot will be your own for as long as you choose to stay.

## WEATHER

White Bay weather is consistently beautiful. The Caribbean days are sunny and comfortable at 80 degrees. You will enjoy crystal clear water that is as calm as your bath. At night the star-filled sky and 70-degree air is perfect for a stroll on the beach.

# ACTIVITIES

Whether you wish to bask in solitude and soak up rest and relaxation - or you choose to dive headfirst into your tropical island getaway - the British Virgin Islands offer a wide variety of activities.

## ***Snorkeling***

Open your eyes to the beauty of the undersea world. The waters of the BVI's are filled with unexpected treasures - and some are only steps away from the deck of Pink House Villas. The coral reef at White Bay offers spectacular undersea views. Explore the reef's outer edges or swim along the rocks at the western edge.

## ***Scuba Diving***

In the waters surrounding Jost Van Dyke lie an abundance of prime dive sites. Living in the shallow and warm ocean water are colorful bands of coral and sponges. Deeper down, a rock wall will lead you into a dark world of sunken ships, big sea rays, and barracuda. In order to arrange an adventure, contact Colin at Jost van Dyke Scuba at 284.495.0271 or visit his website at <http://www.jostvandykescuba.com>.

### **Other Activities "On The Water"**

- Boat Rentals
- Charter Boat Trips
- Sailing Schools
- Surfing
- Windsurfing
